BOX STOCK CATEGORY BECOMES BASIC KIT BUILD

To better fit the spirit and intent of the “box stock” category, it has been changed to “basic kit build” and, as the title suggests, is intended for subjects which use only parts included in the basic kit. Use of highly detailed “super kits” is discouraged, but not prohibited. However, if you choose to use a “super kit” secondary media such as photo-etch and resin should not be used. Ultimately, the judges reserve the right to use their discretion as to if a subject qualifies or not.
